Punnets

How can we help?

Punnets designed to protect, store, and display your fresh produce such as soft fruit, stone fruit, and mushrooms. Available in plastic, pulp, or card, we offer a range of sizes and heights to suit your different product needs, combining durability, visibility, and eco-friendly options for efficient packing and attractive presentation.

Our Range

RPET

PULP

BESPOKE CARD

Our plastic punnets are designed to protect and present soft fruit at its best, offering a range of heights and sizes to suit every variety and packing need. Made from durable, food-safe, and using recycled PET, they ensure freshness, visibility, and reliability from field to shelf.

Our pulp punnets provide a sustainable and versatile packaging solution for soft fruit, stone fruit, and mushrooms. Available in a range of heights and sizes, they offer excellent protection, breathability, and presentation – all made from recyclable, compostable materials that support eco-friendly growing and retail practices.

Our bespoke card punnets offer a sustainable, customizable packaging solution for soft fruit, available in a wide range of heights and sizes to suit your specific needs. Made from recyclable and renewable materials, they combine strength, freshness, and shelf appeal – perfect for showcasing your fruit while reducing environmental impact.

Boxes

How can we help?

Produce Boxes are designed to protect, transport, and present fruits and vegetables efficiently. Available in hand-erect, machine-erect, or bespoke designs and a range of sizes, heights and strengths they combine durability, and practicality to keep produce safe while enhancing shelf appeal.

Designed for durability, quality, and visual impact, they provide a practical, professional packaging solution that enhances both protection and presentation while highlighting your brand.

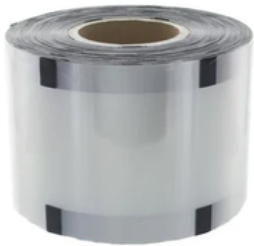

Film

How can we help?

At ESP we offer a range of different films to fit your varied produce packaging needs, designed to maintain freshness and extend shelf life. Our range includes plain, punched, perforated, or printed options, these food-safe films provide durability, clarity, and ventilation to suit your different types of fruit and vegetables.

Our Range

PLAIN FILM

All of our plain films provide a clear, protective seal that keeps produce fresh and visible. Available in a range of sizes to suit different punnet types, such as card and plastics, and flow wrapping these durable, food-safe films offer excellent clarity, strength, and compatibility with various sealing systems and machines

PUNCH FILM

Our plain, punched, and perforated films are designed to seal and protect punnets while maintaining optimal freshness and airflow. Available in a range of sizes to suit all punnet types, these high-quality, food-safe films combine clarity, strength, and functionality for superior product presentation and shelf life.

PRINTED

At ESP our printed films offer a customisable packaging solution that protects your produce while enhancing brand visibility. Available in a range of sizes for various punnet types or flow wrapping, these durable, food-safe films combine clarity, strength, and eye-catching design for maximum shelf appeal.

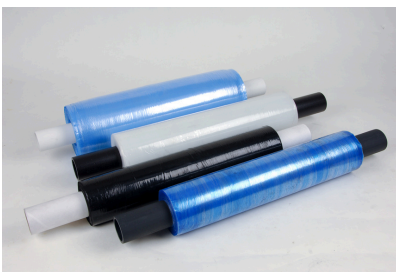

Packhouse Essentials

How can we help?

At ESP, we provide a comprehensive selection of packhouse essentials to meet all your needs. From pallet wrap to banding, we supply a wide range of products designed to support every step of the packing process.

Our Range

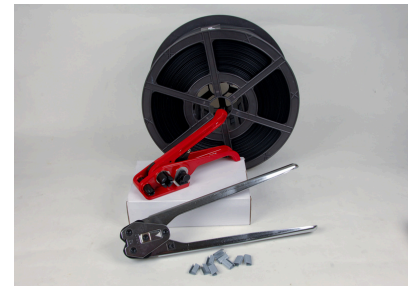

PALLET WRAP

Our pallet wrap provides secure, reliable protection for your goods during storage and transport. Available in a range of sizes, thicknesses and colours, it offers flexibility, visibility, and strength to keep pallets stable while meeting your operational and branding needs.

TAPE

The tape we offer is available in a range of lengths, colors, and materials, including both plastic and paper options. Durable and reliable, it's perfect for sealing, securing, and identifying your products efficiently.

BANDING

We offer complete banding solutions, including bands, clips, tensioners, and crimpers, providing everything you need to secure, bundle, and stabilise products efficiently and reliably. Durable and easy to use, our system ensures consistent performance for a variety of applications.
